FAIR TRADE AFRICAN BASKETS FROM BABA TREE

“These wonderful colourful baskets are made of natural materials and are perfect for storage!”

Founded in 2004 by Canadian Gregory ‘Ayinedollah’ MacCarthy, The Baba Tree Basket Company is based in Ghana and makes ethically sourced African baskets handmade by artisan weavers. These wonderful colourful baskets are perfect for shopping, storage or as Moses baskets, laundry baskets, bicycle baskets or even funky dog beds!

The baskets are available in a variety of colours and sizes and are all made in the village of Bolgatanga, where families of weavers have been working with The Baba Tree for years. In a lovely personal touch, every basket on their website shows the weaver who created it. The weavers are paid well for their work and receive 5%-15% of the retail price as a commission, in addition to what they were originally paid.

TOP Annie says, “These incredible oversized baskets honour local Gurunsi basket traditions.”

ABOVE The baskets are functional and colourful works of art that can be used every day
